December Jobless Rates Rise Seasonally in All Michigan Regional Labor Market Areas

Lansing –Seasonally unadjusted unemployment rates in December rose in all 17 of the state’s major labor market areas, according to data from the Michigan Department of Technology, Management & Budget.

“Michigan’s labor market regions exhibited typical seasonal movement in December,” said Jason Palmer, director of the Bureau of Labor Market Information & Strategic Initiatives, “For 2018 overall, most areas showed payroll job increases, and all areas recorded lower jobless rates over the year.”

During December, unemployment rate increases ranged from 0.1 to 1.9 percentage points with a median advance of 0.6 percentage points. The largest over-the-month rate hikes occurred in Michigan’s northernmost regions, including the Northeast Lower Michigan region (+1.9), the Upper Peninsula (+1.4), and the Northwest Lower Michigan region (+1.2). The December Michigan non-seasonally adjusted jobless rate of 4.0 percent was three-tenths of a percentage point above the national unadjusted rate of 3.7 percent.

2018 Annual Average Unemployment Rates Down Over Year

Preliminary annual average data indicates that regional jobless rates fell in all major labor market areas from 2017 to 2018 (see page 7). Rate declines ranged from 0.2 to 0.8 percentage points with a median decrease of six-tenths of a percentage point. The largest annual jobless rate cuts occurred in the Northeast Lower Michigan and Upper Peninsula regions, which were both down by 0.8 percentage points in 2018.

Total Employment Down Over Month, Up Over Year

From November to December, total employment fell seasonally in 16 of Michigan’s 17 regions. Reductions ranged from 0.8 to 2.2 percent with a median decline of 1.3 percent. The largest over-the-month employment decreases were in the Northeast Lower Michigan region (-2.2%) and the Upper Peninsula (-1.9%). Detroit was the only metro area with a small monthly employment gain (+0.2%). Since December 2017, employment rose in 13 regions, fell in three, and remained unchanged in the Northeast Lower Michigan region. Over-the-year gains ranged from 0.1 to 1.5 percent with a median increase of 0.5 percent.

Labor Force Levels Down Over Month and Mixed Over the Year

December workforce levels fell seasonally in 14 regions with reductions ranging from 0.3 to 1.8 percent. The largest labor force declines occurred in the Lansing (-1.8%),

Monroe (-1.3%) and Ann Arbor (-1.3%) MSAs. Labor force levels increased in the Detroit (0.5%) and Northwest Lower Michigan (0.3%) regions, and remained unchanged since November in the Northeast Lower Michigan region.

Since December 2017, labor force levels fell in 10 areas, rose in six, and remained unchanged in the Battle Creek MSA. Workforce reductions ranged from 0.4 to 1.8 percent with a median decrease of 0.9 percent.

December Payroll Jobs Down Seasonally

The monthly survey of employers indicated that seasonally unadjusted payroll jobs in Michigan declined by 21,000 in December to 4,463,000. Seasonal job cuts were seen in *Professional and business services* (-8,100), *Government* (-7,300), and *Mining, logging, and construction* (-6,400). The only over-the-month job gains of note occurred in *Transportation and warehousing* (+3,600) and *Health care and social assistance* (+2,000). During the holiday hiring season from October through December, *Retail trade* jobs in Michigan rose by 12,100, a gain slightly smaller than the 12,900 jobs added last year over the same period.

Nonfarm jobs moved down in eleven of Michigan's 14 metro regions in December. Payroll employment edged up slightly in Muskegon and Battle Creek and remained unchanged in Midland. Regional job declines ranged from 0.1 to 1.1 percent.

Since December 2017, unadjusted payroll jobs rose statewide by 53,000, or 1.2 percent. Twelve of Michigan's metro regions advanced in employment over this period, led on a percentage basis by Grand Rapids (2.2%), Lansing (1.8%), and Ann Arbor (1.8%). Over-the-year job declines occurred in the Jackson (-0.8%) and Muskegon (-0.2%) metro areas.

County Jobless Rates Up Over Month, Down Over Year

Eighty of Michigan's 83 counties exhibited seasonal jobless rate advances in December, with a median increase of 1.0 percentage point. Eaton County's rate declined slightly, while Ingham and St. Joseph counties had no rate changes over the month. Since December 2017, unemployment rates moved down in 77 counties with a median decrease of 1.0 percentage point. Rates edged up slightly in five counties and remained unchanged in Oakland County over the year.

*Note: Data in this release is **not seasonally adjusted**. As a result, employment and unemployment trends may differ from previously released Michigan seasonally adjusted data.*

A breakdown of seasonally unadjusted December workforce estimates for Michigan and its 17 major labor market areas follows, along with a listing of county jobless rates for December.
